The disclosure is objected to because the specification fails to contain a reference to Applicant's provisional application, as required by 37 CFR 1.78(a)(5)(i). Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2 and 14-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The recitation "a treatment tank" (claims 1, 2 and 17, line 3) is somewhat indefinite, since it is not clear whether or not this "treatment tank" is intended to be the "water treatment tank" recited in the preamble of these claims. Applicant is advised that an amendment changing "a treatment tank" to either "the treatment tank" or "a water treatment tank" in the above noted locations would overcome this rejection.

Claims 1, 2 and 14-19 would be allowed if rewritten or amended to overcome the above rejection under 35 U.S.C. § 112.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1724

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

This application contains claims 3-8 and 11-13 drawn to an invention nonelected with traverse in the response filed March 11, 2004. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
